The weekly rate for 1856 was 10s. for males, 9s. for females.					
„	1857	10s.	„	9s.	„
„	1858	9s.	„	8s.	„
„	1859	8s. 6d.	„	7s. 6d.	„
„	1860*	8s. 3d.	„	7s. 3d.	„
„	1861	7s 9d. first half year, equally			
		8s. 3d. second ditto „			
„	1862	7s. 9d. the whole year „			

This sum now includes certain items of furniture and bedding formerly charged to the Fabric account. The present rate is below the actual cost, to which it will be necessary to revert when the present balance in hand has been reduced to a point just sufficient to maintain the financial credit of the establishment.

Whilst the Parishes have had the benefit of the accumulations by way of a reduced rate of charge, the Committee have likewise been enabled to enter into an agreement for the purchase of two pieces of land as an addition to the Asylum Estate.

It was reported to the Visitors that a plot of land contiguous to the south-east corner of the Asylum, in the parish of Sneinton, was about to be sold. Authority was given to the Chairman to negotiate for the same, and subsequently to contract for the purchase of this land containing 3270 square yards or thereabouts, in consideration of the sum of £776 12s. 6d. In addition to this property of Mr. Geo. Wagstaff, a smaller plot, the property of Mr. S. Whitchurch, was contracted for to be purchased, consisting of 384 square yards, and in consideration of the sum £115 4s. These properties are all frontage land, and supply the future facility to provide an outlet on the southern side, and owing to its being bounded by a main street, prospectively enhancing the value of the Asylum Estate.

* The cost of furniture and bedding was not included in the weekly charge for 1860, and the payments at 8s. 3d. for males exceeded those of 7s. 3d. for females.

These removals leave 160 males, and 154 females, in the Asylum on the 31st December, 1862. Total 314—an increase of 4 only when compared with the statistics at the close of 1861.

There has been a marked diminution in the number of admissions, from both the County and Borough, viz.: 85 new admissions (excluding the six transferred), against 121 last year.

The beneficial effect of this reduction in the admissions will be felt during the next year or two, and will tend to prevent the building now in progress being filled up so soon as was expected. The plans for the enlargement of the Asylum recommended in the Report of the Committee last year, having been sanctioned by the Lunacy Commissioners, and confirmed by the Secretary of State for the Home Department, at the General Quarter Sessions for the County, held on the 30th June, the Court approved of such plans for the enlargement of the male side of the Asylum, with estimates of the cost of carrying out the same, which amounted to about £1,800, and authorized the Visitors to proceed with the erection of the proposed buildings, to which the Town Council of the Borough also assented. On the 16th July the tender of Mr. R. Dennett, to complete the contract for the new works at £1,825 10s., was accepted by the Committee of Visitors. The works were commenced on the first of August, the greater portion is now roofed in, and one dormitory occupied by the patients, another larger dormitory may be entered upon in a few days, and the remaining works, including the new work-rooms, will be finished by the middle of March.

The Lunatic Patients from the several Unions in the County and Borough have been maintained at the moderate rate of 7s. 9d. per week for males and females equally, during the past year, which is the lowest annual charge that has been made since the formation of the present Union.

TO THE
COURT OF QUARTER SESSIONS

FOR THE COUNTY,

AND TO THE

Town Council of the Borough of Nottingham.

THE Committee of Visitors of the County and Borough of Nottingham Lunatic Asylum at Sneinton, have to report the following Summary of their proceedings for the year 1862, in accordance with the Act of Parliament under which they are appointed:—

On the 31st December, 1861, there remained 160 male patients in this establishment, and six others temporarily accommodated at Lincoln County Asylum; and 144 females. Total 310.

Since then there have been admitted 91 patients (including the aforesaid 6 transferred from Lincoln), namely, 48 men and 43 women.

The discharges during the year have been 40 recovered, and 4 not recovered.

The proportion of those recovered to the number admitted amounts to 43.9 per cent.

The deaths have been 37, being fewer than in either of the two preceding years.

The Committee have satisfaction in reporting that they have sufficient funds in hand to complete the purchase of these properties without calling on the County or the Borough for a grant.

The parliamentary inspections of the patients and the Asylum have been regularly made every two months, and the condition of both reported as satisfactory. No suicides or serious accidents have occurred to require the special attention of the House Committee.

The Commissioners in Lunacy made their annual visit on the 20th day of February, and left a report of a favourable character. This will be printed as usual with the other annual documents.

Miss E. Motson having been appointed Matron and Housekeeper in the place of Miss Matthews, resigned, the Committee have great pleasure in reporting that they have every reason to believe her duties have been satisfactorily discharged.

The Balance Sheets will be prepared and audited before the month of March, in accordance with the Statute.

The Committee are fully satisfied with the general management of the Asylum.

William Vickers,

CHAIRMAN.

JANUARY 1ST, 1863.

Annual Report of the Superintendent.

MR. CHAIRMAN, MY LORD, AND GENTLEMEN,

THE changes in the number of Patients during the year 1862, and other results, are comprised in the following tabular statement:—

				M.	F.	T.
Patients remaining December 31st, 1861				160	144	304
Ditto admitted during 1862				48	43	91
Total under Treatment				208	187	395
				M.	F.	T.
Discharged recovered ..				22	18	40
,, relieved ..				1	1	2
,, not improved ..				1	1	2
Died				24	13	37
				48	33	81
Remaining December 31st, 1862 .. .				160	154	314

The number of admissions, 91, includes 6 transfers from the Lincolnshire Asylum, and is 30 below that of the year 1861. The decline has been general throughout Nottinghamshire, though not equally distributed. There have been 13 fewer received from the County, 14 from the Borough of Nottingham, and 3 from Newark. This is contrary to general expectation, especially as the passing of an Act of Parliament, whereby the charge for the maintenance of Lunatics was transferred from the Parishes to the common fund of the Union, led to the supposition that certain Patients then detained out of the Asylum might be sent in, in consequence

of individual Parishes being no longer liable for the payments. It might also have been expected that the depression in the various branches of the cotton manufactures carried on in this County, would have raised the number of admissions into the Asylum, directly, by the resulting poverty acting as a cause of disease, and indirectly, by rendering persons of limited means unable to provide for their insane relatives, otherwise than as Paupers. These fears have proved groundless, and without entering into any lengthened discussion upon the question it will be sufficient to remark, that more extended experience tends to lessen the importance of moral causes, such as reverse of fortune, pride, ambition, &c., as agents in the production of insanity; and it seems highly probable, that the healthy condition of the population generally during the last year—the diminished risk of physical injuries—and the lessening of the means for indulging in habits of intemperance, have more than compensated for the depressing effects arising out of a partial stoppage of employment. In reference to this subject it is worthy of note, that the distress which existed in Coventry and its neighbourhood in 1860 and 1861, was not accompanied by any corresponding increase in mental disorders.

The recoveries amount to 40, being 43.95 per cent. on the admissions. The deaths are 37, or 12.13 per cent. on the number daily resident, and 9.34 per cent. on the total under treatment. The obituary presents no remarkable features. Inquests were held on two persons who died suddenly in epileptic fits.

No suicide or serious accidents have occurred during the year. One woman escaped and reached her home. Her friends had been importunate in endeavouring to obtain her release, when in an unfit state to be at large; she was not recaptured, and proved to be so unmanageable under their care, that they subsequently obtained her readmission.

Three Acts of Parliament affecting Lunatics have come into operation since the last Report:—The 24 and 25 Vict., cap. 55,

has been already referred to ; the 25 and 26 Vict., cap. 86 relates to Commissions in Lunacy ; and the 25 and 26 Vict., cap. 91 is the Lunacy Acts Amendment Act. This last entails upon the Superintendent the duty of transmitting to the Coroner, notice of the death of every Patient, and also a statement of the condition of every Pauper Lunatic in the Asylum every six months to the Guardians of the respective Unions.

Three Criminals remain under supervision. In reply to a return required by the Board of Lunacy, I certified that it was inexpedient to remove them on account of their imbecile mental state and tranquil conduct.

The Middleton Fund for affording relief to convalescent Patients on leaving the Institution has been benefited by a Legacy of £25 under the will of Miss Ann Taylor, of Nottingham. Twenty-one Patients have received assistance in clothes or money from the charity.

The number of curable cases is estimated at 42, and the incurable at 272.

The efforts made to amuse the Patients by a variety of Entertainments, have proved not only gratifying but beneficial to them. Several who have been discharged recovered, have requested permission to attend afterwards as visitants.

The financial position of the Asylum is shown in the abstracts of the Accounts presented to-day.

It will be in the recollection of the Visitors, that in 1857 they were enabled to pay off £1500 to the County and Borough, monies borrowed to provide in advance for the expenses of the establishment under the new Union. This year, the increase in the balance in hand will allow the Committee to pay the sum of £891 16s. 6d. to complete the purchase of two plots of Land contiguous to the Asylum, and leave sufficient to provide for the current expenditure on the Maintenance and Fabric Accounts.

The Committee have satisfaction in reporting that they have sufficient funds in hand to complete the purchase of these properties without calling on the County or the Borough for a grant.

The parliamentary inspections of the patients and the Asylum have been regularly made every two months, and the condition of both reported as satisfactory. No suicides or serious accidents have occurred to require the special attention of the House Committee.

The Commissioners in Lunacy made their annual visit on the 20th day of February, and left a report of a favourable character. This will be printed as usual with the other annual documents.

Miss E. Motson having been appointed Matron and House-keeper in the place of Miss Matthews, resigned, the Committee have great pleasure in reporting that they have every reason to believe her duties have been satisfactorily discharged.

The Balance Sheets will be prepared and audited before the month of March, in accordance with the Statute.

The Committee are fully satisfied with the general management of the Asylum.

William Vickers,

CHAIRMAN.

JANUARY 1ST, 1863.

Annual Report of the Superintendent.

MR. CHAIRMAN, MY LORD, AND GENTLEMEN,

THE changes in the number of Patients during the year 1862, and other results, are comprised in the following tabular statement:—

				M.	F.	T.
Patients remaining December 31st, 1861				160	144	304

Died				24	13	37
				48	33	81
Remaining December 31st, 1862 .. .				160	154	314

The number of admissions, 91, includes 6 transfers from the Lincolnshire Asylum, and is 30 below that of the year 1861. The decline has been general throughout Nottinghamshire, though not equally distributed. There have been 13 fewer received from the County, 14 from the Borough of Nottingham, and 3 from Newark. This is contrary to general expectation, especially as the passing of an Act of Parliament, whereby the charge for the maintenance of Lunatics was transferred from the Parishes to the common fund of the Union, led to the supposition that certain Patients then detained out of the Asylum might be sent in, in consequence

of individual Parishes being no longer liable for the payments. It might also have been expected that the depression in the various branches of the cotton manufactures carried on in this County, would have raised the number of admissions into the Asylum, directly, by the resulting poverty acting as a cause of disease, and indirectly, by rendering persons of limited means unable to provide for their insane relatives, otherwise than as Paupers. These fears have proved groundless, and without entering into any lengthened discussion upon the question it will be sufficient to remark, that more extended experience tends to lessen the importance of moral causes, such as reverse of fortune, pride, ambition, &c., as agents in the production of insanity; and it seems highly probable, that the healthy condition of the population generally during the last year—the diminished risk of physical injuries—and the lessening of the means for indulging in habits of intemperance, have more than compensated for the depressing effects arising out of a partial stoppage of employment. In reference to this subject it is worthy of note, that the distress which existed in Coventry and its neighbourhood in 1860 and 1861, was not accompanied by any corresponding increase in mental disorders.

The recoveries amount to 40, being 43.95 per cent. on the admissions. The deaths are 37, or 12.13 per cent. on the number daily resident, and 9.34 per cent. on the total under treatment. The obituary presents no remarkable features. Inquests were held on two persons who died suddenly in epileptic fits.

No suicide or serious accidents have occurred during the year. One woman escaped and reached her home. Her friends had been importunate in endeavouring to obtain her release, when in an unfit state to be at large; she was not recaptured, and proved to be so unmanageable under their care, that they subsequently obtained her readmission.

Three Acts of Parliament affecting Lunatics have come into operation since the last Report:—The 24 and 25 Vict., cap. 55,

has been already referred to ; the 25 and 26 Vict., cap. 86 relates to Commissions in Lunacy ; and the 25 and 26 Vict., cap. 91 is the Lunacy Acts Amendment Act. This last entails upon the Superintendent the duty of transmitting to the Coroner, notice of the death of every Patient, and also a statement of the condition of every Pauper Lunatic in the Asylum every six months to the Guardians of the respective Unions.

Three Criminals remain under supervision. In reply to a return required by the Board of Lunacy, I certified that it was inexpedient to remove them on account of their imbecile mental state and tranquil conduct.

The Middleton Fund for affording relief to convalescent Patients on leaving the Institution has been benefited by a Legacy of £25 under the will of Miss Ann Taylor, of Nottingham. Twenty-one Patients have received assistance in clothes or money from the charity.

The number of curable cases is estimated at 42, and the incurable at 272.

The efforts made to amuse the Patients by a variety of Entertainments, have proved not only gratifying but beneficial to them. Several who have been discharged recovered, have requested permission to attend afterwards as visitants.

The financial position of the Asylum is shown in the abstracts of the Accounts presented to-day.

It will be in the recollection of the Visitors, that in 1857 they were enabled to pay off £1500 to the County and Borough, monies borrowed to provide in advance for the expenses of the establishment under the new Union. This year, the increase in the balance in hand will allow the Committee to pay the sum of £891 16s. 6d. to complete the purchase of two plots of Land contiguous to the Asylum, and leave sufficient to provide for the current expenditure on the Maintenance and Fabric Accounts.

On the 12th of February, 1862, the Asylum had been in operation fifty years. A reference to the Tables will shew that the amount of success that has attended the labours of those who have promoted its objects during this lengthened period, has been such as to justify the expectations of its Founders; and I have pleasure in stating, that professional strangers who now visit the Establishment record, notwithstanding its age, their favourable impressions of the completeness of the existing arrangements.

I have the honour to be,

Mr. Chairman, my Lord, and Gentleman,

Your obedient Servant,

Wm. Phillimore Stiff, M.B., Lond.,

SUPERINTENDENT.

COUNTY AND BOROUGH LUNATIC ASYLUM,
SNEINTON, NEAR NOTTINGHAM,
JANUARY 21, 1863.

Report of the Commissioners in Lunacy.

NOTTINGHAM COUNTY AND BOROUGH ASYLUM,

20TH FEBRUARY, 1862.

THIS Asylum at present contains 300 Patients, of whom 158 are men and 142 are women. We have personally examined the whole of them and have inspected their wards.

At the time of our visit the Patients were remarkably free from excitement, and no one was under any kind of instrumental restraint, nor was any Patient secluded.

We had every reason to be satisfied with the personal condition of the Patients, who were clean and well dressed, and altogether in a very comfortable state.

The following changes have taken place since our last visit in August, 1861 :—

						M.	F.	T.
Admitted	24	22	46
Discharged	22	12	34
Died	11	7	18

Of the Patients who were discharged, 24 were recovered.

The Deaths were attributed to causes ordinary among the insane, but in one case of Epilepsy an inquest was held, the Patient having been found smothered in his bed whilst in a fit.

There is a somewhat large proportion of feeble paralytic cases in the Asylum, but the general health is good, and no disease of an epidemic character prevails. To-day we found 7 men and 9 women in bed, and 15 men and 10 women are under medical treatment.

With reference to the occupations and amusements of the Patients, we find that about 74 men and 70 women are regularly employed.

Of the men 18 work on the Land, 7 in the Work-shops, &c., and 3 in the Kitchen. As many as 30 of the female Patients find constant occupation in the Laundry and Wash-house. Needlework employs 22 more, and others make themselves useful in the Kitchen and Wards.

The attendance at Chapel on Sunday amounts on an average to 155 of whom 80 are men; the week-day congregations are smaller.

Parties are still held in the Laundry occasionally, and there seems to be a fair amount of books and amusements provided for the home recreation of the Patients. We are assured that they pass much of their time in the open air, and we learn with pleasure some are taken for walks beyond the Asylum precincts, and that others are suffered to visit their friends in the Town.

All the wards were perfectly clean and free from offensive odour, and we noticed that additional furniture, &c. had been supplied, especially in the Lower Women's Ward, where owing to this improvement, and to a less strict classification than was formerly practised, the Patients were as quiet as in any other Ward in the Building.

During our passing through the galleries, several desirable improvements of a structural nature occurred to us, we refrain however from offering any suggestions on the present occasion, feeling that it would be unwise to incur any but absolutely necessary expenses upon a building which it is evident can only be sufficient

for the wants of the County and Borough for a very few years longer, even if the additions now under consideration are carried out.

We took advantage of our visit to inspect on the spot the site of the proposed enlargement for male Patients, in reference to which we shall report to the Board of Commissioners.

There are now vacancies for 8 male and 9 female Patients, but as there are 6 Patients belonging to the County in the Lincoln Asylum, and some of the smaller dormitories are now overcrowded with beds, even when the proposed additions are made there will be no great amount of vacant accommodation to meet an average increase of about 20 patients per annum.

We understand that it is the intention of the Committee to propose an enlargement on the female side, similar to that in the Men's Ward. If this design be carried out there will be a population of 397 Patients on an area of 21 acres.

In conclusion, we are glad to be able again to Report very favourably of the general condition of the Institution, which reflects much credit on the skill and assiduity of the Medical Superintendent, and the Officer acting under his direction.

W. G. Campbell, }
Robert Ayrine, } COMMISSIONERS IN LUNACY.

Appendix.
